

**INNCOM Global Leader in Intergrated Room Automation Systems.  
Guests appreciate the Convenience. You'll appreciate the Savings!  
Giving You a Headstart on Going Green!**

**Dear Duane W.,**

Environmentally friendly buildings have never been more important - to your guests or your bottom line. This is why our experts are happy to work with you to determine how INNCOM products can help make you operate greener.

Brantas, specialist of in-room solutions, will put environmental applications on the forefront this year. From a simple "stand alone" implementation to an INNCONTROL centralised building management system, INNCOM is the answer. INNCOM can be easily implemented in existing, operating hotels. If you are renovating or building a new hotel, considering implementing INNCOM is a must.

Talk to us at 0508 272 6827 or email us at [info@brantasinternational.com](mailto:info@brantasinternational.com) and we will show you how much money you can save and how to become truly environmentally friendly.

Have a great, green and healthy 2010!

The team at Brantas

Centrally Controlled Energy Management

The INNCOM e<sup>4</sup> is designed to control virtually any fan coil unit or packaged terminal air conditioner found in hotel guestrooms

Green Impact - ecoMODE™

Glass Series Thermostat

The Glass Thermostat GS-528V Series has an eco-friendly glass touch surface, with customised colours, fonts, images and functionality

INNtouch™

The INNtouch™ guest notification device consists of an interior guestroom plate with two buttons and a door chime. It is matched with an exterior corridor wall plate featuring a doorbell and indicators for privacy and make up room requests

Glass Tabletop Controller

A one to nine switch touch capacitance, multi-purpose device designed for convenient bedside guest control of all electronic amenities

The DESIGNER™ Series Switch

A low voltage switch input for lighting, fan, drape or similar applications, is a member of INNCOM's Integrated Room Automation System (IRAS) and is available in various models
