We took you all around the [Park Hyatt New York](#) a few weeks ago but in honor of the luxury hotel's **official opening day**, we're spotlighting **5 tech touches in the guest rooms** that we thought you'd like. Rooms for tonight are holding steady at **\$725** for a Park Deluxe King.

CLEARLY MARKED BEDSIDE BUTTONS. Turning on and off the lights with the press of a button can actually be accomplished here. (Shout-out to the extra outlets!)

INNCOM[®] by Honeywell EVORA[®] Switches

NEWEST NESPRESSO MODEL. Even the pods are different!

INTELITY IPAD MINIS. Each guest will have one of these on the nightstand to use during their stay. (The iPads were not installed yet during our visit so, just imagine.)

GADGET HOOK-UP. A power/gadget hook-up strip is installed at each desk.

TOTO TOILETS. Yes, this matters.
